About Edison's Eve. During the eighteenth century, the inventor Jacques de Vaucanson created a mechanical duck that seemingly could digest and excrete its food. A few decades later, Europeans fell in love with "the Turk," a celebrated chess-playing machine built in 1769. Thomas Edison was obsessed for years with making a talking mechanical doll, one of his few failures as an inventor.

Nonfiction Book Review: EDISON'S EVE: A Magical History of ...  
At about the same time, a French novelist, Villiers de l'Isle-Adam, published The Eve of the Future, in which Edison is fictionalized as a sort of magician, who at the request of a friend builds a life-size mechanical doll in the image of the man's love interest. It should be noted that since the date of the novel was 1886 the anatomical details and functions of the doll aren't described in any detail, but since it's a French novel its lingerie is (it has "deliciously fine ladies ...
