Introduction~~

I found this book to be a superb introduction not just to Freud but to the core concepts of psychoanalysis as a whole. Don't be fooled (or put off) by the title saying it is a "short" introduction, there is nothing short or shallow about this book. Thanks to the fairly small print it actually contains a

Description. Sigmund Freud, the founder of psychoanalysis, developed a totally new way of looking at human nature. Only now, with the hindsight of the half-century since his death, can we assess his true legacy to current thought. As an experienced psychiatrist himself, Anthony Storr offers a lucid and objective look at Freud's major theories, evaluating whether they have stood the test of time, and in the process examines Freud himself in light of his own ideas.
