cover to cover and actually enjoyed. This book is a lovely introduction to the world of game theory. It is one of those subjects that, once you've learned it, you can't look at the world the same way again.

~~Games of Strategy by Avinash K. Dixit – Goodreads~~

Now available in a Second Edition, Games of Strategy remains the most accessible principles-level text for courses in game theory, addressing a remarkably broad range of concepts in a narrative that is both clear and compelling. Using resonant real-world examples, the authors simplify difficult theoretic ideas, helping students see the value of strategic thinking in a variety of situations.

In game theory, a win-win game is an interaction from which all participants can profit in some way. In conflict resolution, a win-win strategy is a collaborative strategy and conflict resolution process that aims to accommodate all participants. In economics, it is a voluntary transaction where both parties gain wealth, as in the double thank-you of capitalism
