**Harley-Davidson Engine Number Location**

Vehicle Identification Number (V.I.N.) is located on the engine crankcase and is the same as the number located on frame steering head. Example: 1A 13478 H7

**engine identification—Harleys.de**

From 1930 to 1962 the VIN number was the engine number and was only located on the left case. The VIN was between 8 and 10 digits with the first 2 digits being the production year, the next 2 – 4 letters being the model designation and the last 4 digits being the production number. Example: Year. Model.

**Harley-Davidson VIN Numbers Explained**

1960s and Older Engines. Look on left side of the engine case for the engine number. Harley engines that were made before or in the 1960s have the model year of the engine as the first two numbers of the engine number, which acts as a VIN. Look for a four-digit production code in the last four digits of the VIN.

**How to Find Out What Year a Harley Davidson Motor Is** :

Find the VIN number of the Harley in question, usually on the frame; Type the number into our VIN checker paying attention to every digit. We suggest you double-check the number to make sure you've typed it properly (it could save you unnecessary incomprehension with the seller); Click on the Check VIN button and wait a few seconds;
