(PDF) Critical Analysis of Learning Theories and ...

In general psychology, interest in learning styles goes back to at least the 1920s when Carl Jung proposed the theory of psychological types (Sternberg and Grigorenko 1997). In the field of education, the learning style concept has been recognized since at least the mid-1970s (Griffiths 2012). Subsequently, many different dimensions of learning styles have been investigated both conceptually and empirically, and numerous theories and multiple taxonomies attempting to describe how people ...
