"Lies, damned
lies, and

And Science" is a phrase describing the persuasive power of numbers, particularly the use of statistics to bolster weak arguments. It is also sometimes colloquially used to doubt statistics used

to prove an
opponent's
point. The
phrase derives
from the full
sentence, "There
are three kinds
of lies: lies,
damned lies, and
statistics."; it
was popularized
in the United
States by Mark
Twain and
