There is a Frequency Search Function that is not mentioned in any Motorola manual printings. By using the normal style of programming mentioned below you may search through a range of frequencies between a start and stop frequency like a scanner. 1. Program a start frequency (normally the lower limit) into channel 19. 2.

The Motorola GP-68 is available in both VHF and UHF.
This particular radio is UHF. Both program the same.
While manufacturer programming information is
confusing, here is a quick, simple set of instructions to
follow for successful programming.
