Science | Teaching Ideas

Science education is the teaching and learning of science to non-scientists, such as school children, college students, or adults within the general public. The field of science education includes work in science content, science process (the scientific method), some social science, and some teaching pedagogy.

Science education - Wikipedia

Achievement in science subjects is an essential foundation for many careers in science, technology, engineering and maths (often abbreviated to STEM), and a host of other non-STEM related careers.
