Unbelievable: Investigations into Ghosts, Poltergeists ...

Unbelievable is the book that everyone who read Alexandra Sokoloff's terrible *The Unseen* was actually hoping for, an insider's guide to the goings-on of the Rhine Lab, Duke's famed parapsychology program. Horn lovingly traces the work of founder J.B. Rhine from the lab's inception until after his death, focusing on his determination to take parapsychology out of the realm of science fiction and

Unbelievable ...

Investigating telepathy, clairvoyance, ghosts, poltergeists, and the myriad other strange phenomena that people claim to have experienced, the scientists did find proof that the human mind can exhibit telepathic powers—but their discovery would put them at odds with both the scientific community and the community of believers at large, beginning a multidecade battle among unyielding critics, die-hard believers, and scientists themselves.

the strange, lost history of these first attempts to prove—or disprove—the existence of the paranormal, bringing to light a half-century's worth of ghost stories, poltergeists, and paranormal activity. The Duke scientists were queried by the likes of Albert Einstein, Richard Nixon, Aldous Huxley, Carl Jung, and Helen Keller; the U.S. Army and blue-chip corporations such as IBM and Zenith seized upon their findings.
